

# OMOX ARM SLING PEDIATRIC

## MR1103

A pediatric arm sling made from cotton fabric with cartoon printing. The shoulder sling has a deep pocket with a strap that is adjusted with hook and loop. The strap has foam padding for extra comfort around the neck/shoulder.

**Indications:** Post-operative shoulder immobilization, upper extremity trauma and strains, humeral or elbow trauma.

## MR1103 OMOX ARM SLING, PEDIATRIC

Universal sized for pediatrics age 3-8 years of age.
