

# CRX<sup>®</sup> MALLEUM PLUS

## CRX<sup>®</sup> Malleum Plus

An orthosis that combines compression and extra support for the ankle. Made of a special material with high compression over the joint and silicone pads. To provide extra support and stability it has a semi-elastic strap that can be applied for individual support. Using the orthosis during activity prevents swelling of the joint. Can be used both for left and right. CRX<sup>®</sup> Malleum Plus should only be used during activity due to the higher compression. People with reduced sensitivity or poor circulation should not use orthosis without consulting a doctor/physician first.

**INDICATIONS** Ankle pain, instabilities, sprains or swelling.

### MR5402 CRX<sup>®</sup> Malleum Plus

Size	Circumference around the malleolus
X-Small	17-19 cm
Small	19-21 cm
Medium	21-23 cm
Large	23-25 cm
X-Large	25-27 cm
XX-Large	27-29 cm
