SRX[®] STRAP NAVY

– The hookless, elastic compression strap

Now our popular SRX[®] Strap is available in navy blue color as an alternative to the grey camo. The inside has a black micro fiber and the function and quality is the same as the camo version.

The SRX[®] Strap is self-attaching with a slight compression effect in the material. It can be cut without fraying, and can be machine washed in 40 degrees C. Do not use fabric softener when washing as it will reduce the self-attaching effect. The SRX[®] Strap can be used for compression and support for all extremity joints and comes in 5-meter rolls.

- **Medium stability**
- **Elastic with compression**
- **Ventilated**

The SRX[®] Strap is available in the following widths:

SRX[®] Strap – 30 mm

- EU457030 SRX[®] Strap · 30 mm x 5 m · Navy blue
